Here it is, the most elaborate video ever produced on American Flyer trains. An excellent gift for Children! Almost two hours of trains and action accessories in all their glory.

## AMERICAN FLYER TRAINS AT THEIR FINEST

The movie opens with steamers puffing around the turntable awaiting their turn in the movie. Next you will see an automatic turntable that really works as a 4-8-4 NORTHERN is serviced. You will then see the American Flyer "Challenger" lift 28 cars up a grade, through a long bridge, over a viaduct and past a bubbling oil well scene as it HUFFS and PUFFS as no other model trains can. A short overview before we get into the action accessories such as the rare TRACK GANG. Some close up views of the water wheel, ice skaters, snow men and a peak into the outhouse. Next comes the SEABOARD COAL LOADER, OIL DRUM LOADER and OPERATING SAWMILL after which you will get a close up of the alligators after the geese and then some close up views of various figures as we come up to the Oil Well Catastrophe. Close up scenes of the GILBERT FARM and then loading of CATTLE and unloading of MILK CANS at the farm. The town trolley is busy as we pass over Plasticville and come across a procession of antique automobiles. Next is the UNLOADING OF LOGS and COAL as well as unloading of SCRAP METAL via the MAGNETIC CRANE before reloading of the coal using a CALM SHELL coal loader. Large logs are loaded before departure. Next is SMITTY THE WALKING BRAKEMAN, another Log unloading scene and then the operating BAGGAGE SMASHER. The TALKING STATION is not forgotten as we arrive at Union Station. You will see the PRR Trail Blazer PICK-UP MAIL on the fly and then UNLOADING OF AUTOMOBILES, CRATES and loading of crates containing delicate china. GUILFORD STATION is next as you witness the loading of people unto the PRR trailblazer. We next get a shot of the overhead blimp as it is touring this display. Don't get between the trains in this next shot or you will be NO MORE! Here comes the "NORTHERN PACIFIC" "VISTA DOME NORTH COAST LIMITED" as we view the TWENTY MULE TEAM BORAX train next. More overviews and then a close up of the "AMERICAN FLYER CIRCUS", colberville, and wedding scene. GABE THE LAMPLIGHTER now climbs to the top and illuminates the turntable as the "AMERICAN FLYER CIRCUS TRAIN" arrives. Here we unload the PIGGY-BACK train. A break-up of the circus train and then a new train is put together as a two unit diesel is fueled and serviced after coming off the turntable. The last accessory is "SAM THE SEAPHORE MAN" halting the "CHESSIE STEAM SPECIAL".

VHS - COLOR 118 MINUTES - \$59.95 POST PAID
