AUTOMATIC COUPLERS!

O ga	S ga	OO	HO
85c	75c	75c	65c
PAIR	PAIR	PAIR	PAIR

(Postpaid)

Look and operate like the big ones. Couple securely, uncouple only when you "pull the pin." Easily installed with lift bar, which may be extended downward as shown, for ramp operation. Also couple with your present dummies and with most other automatics . . . on curves or tangent.

FRAMES & DRIVERS
For HO LOCOS

Mounted on axles and correctly quartered. Insulated one side, with brass tires. No gears available.

Set of 8 drivers, for Consolidation, Mikado, etc., 63" diameter . . . \$5.40
Set of 6 drivers, for Pacific, Hudson, etc., 72" diameter . . . \$4.05
Frame and cover plate as shown, for either locomotive (Say which) . . . \$65c

MOTORS HO - O ga.
6 - 8 - 12v.
AC - DC

1. "O" Motor. 2" dia. 2 1/2" long. 12v. AC or DC. Short shaft 1/8" long; 3/32" dia. By mail . . . \$1.75
2. HO Motor. 12v. D.C. Permanent magnet. 5000 rpm. 25 amp. 7/8" dia. 2 1/2" long. 1/8" shaft. Postpaid . . . \$8.50

ADJUSTABLE FRAME JEWELERS SAWS
Takes up to 6" blade. Uses broken blades as short as 2 1/2". Sturdy construction. Wood handle for firm grip. Complete with blade . . . \$2.25
Extra blades, doz.50c
